#### MAKING FACES.

The Emporia Republican criticises the EAGLE, in effect, for the fight it has made agains, abuses within its own party. Whatever may be said by party papers and party politicians the EAGLE is going to win the day, and in a striking manner. The judgment of a million of people cannot be reached in a day by a single paper, especially when its notions are combatted by the powers that be, but, if in the right, victory must come sooner or later. It was with poor grace that an 80,000 majority of the voters of Kansas heard the Eagle's repeated declaration of "Fool legislation and boodling legislators," yet it was the truth. The constitution of the Alliance recites the very matters of which the EAGLE has been making a hobby for two

years or more. All the offices created for the sole purpose of making places, which the EAGLE has denounced continuously for years, will be abolished, including useless state boards, police commissions, extra attorney generals, election commissioners, etc. It will not be possible much longer, either, for a sheriff in Kansas to make twentyor thirty thousand dollars out of his of him. One of them had out his knife and from his motions a lady, in front of whose house they were, thought he intended to cut the head of her little girl off. In order to assure the lady that he meant no harm, he handed her the knife. Such were the wild Indians that were about to sweep down upon Oklahoma.
